

JOOD ALHARBI

DATA ANALYST

Jeddah, Saudi Arabia | (+966) 562860084 | Jood.talal.alharbi@gmail.com | bento.me/joudalharbi

SUMMARY

IT graduate passionate about Data Analysis, AI, and Machine Learning, with hands-on experience building predictive models and AI-driven solutions using real-world datasets. Interested in transforming data into actionable insights and developing intelligent systems with real-world impact.

PROJECTS

SDAIA – Developing Generative AI Solutions | 2026

- Developed AI applications using Generative AI and LLM concepts.
- Implemented RAG workflows and prompt engineering techniques.
- Evaluated outputs for quality and performance.

GENO – AI-Based Addiction Risk Analysis System (Graduation Project) | 2025

- Collected, cleaned, and preprocessed datasets, including feature selection to enhance model performance.
 - Built and trained machine learning models, achieving 89% accuracy in predicting addiction risk
 - Evaluated and interpreted model performance using accuracy and relevant metrics.
 - Conducted model experimentation and communicated findings to improve prediction performance.
-

WORK EXPERIENCE

General Administration of Libraries – King Abdulaziz University

Jun 2025 – Aug 2025

- Designed a virtual tour project using HTML, CSS, JavaScript, and React, contributing to the development of interactive user interfaces.
- Built Power BI dashboards to visualize data, improving reporting efficiency and supporting decision-making.

Full-Stack Developer | Fada Ajaj Information Technology

Sep 2022 – Jan 2025

- Developed web applications using HTML, CSS, JavaScript, and SQL, improving user experience.
 - Managed SQL databases for data storage, retrieval, and analysis.
-

SKILLS

- **Programming & Databases:** Python, SQL
 - SQL
 - **Data & AI:** Machine Learning, Data Analysis, Feature Engineering, Model Evaluation
 - **Statistics:** Hypothesis Testing, Probability, Linear Algebra
 - **Visualization:** Power BI, Matplotlib
 - **Tools:** Git, GitHub
-

EDUCATION

Bachelor of Information Technology – Database Track

King Abdulaziz University, Jeddah, Saudi Arabia

Graduated 2026

LANGUAGES

Arabic: Native

English: B2
